EDITING SYSTEM AND
METHOD"

Honorable Commissioner of
Patents and Trademarks
Washington, D.C. 20231

Dear Sir:

Attached is a recent advertisement for a new AT&T product referenced as "AT&T WorldWorkx Solutions". Such advertisement is submitted in further support of Applicant's contention that the present invention meets a substantial need only recently recognized and commercially addressed by others. Specifically, the advertisement touts the importance of the ability to collaborate on a given documents as follows:

"Because you'll not only...hear each other, you'll be able to work on the same document at the same time, just as if you were sitting next to each other instead of across the country. So you will be able to save time and make decisions faster. Which could be the business advantage you've been waiting for."

RECEIVED
JUL 12 1994
GROUP 2300

These are the very points which Applicant has been stressing in relation to the present invention from the outset. Importantly, Applicant recognized the need and provided the solution at least as early as August 23, 1989, the filing date for the parent application, while the numerous parties who have now commercialized products directed to the need only recently arrived.

Per Applicant's attorneys recent brief telephone conversation with the Examiner, the Examiner is invited to contact the undersigned attorney to discuss any questions that may arise with respect to the Amendment and Response filed on April 25, 1994, or if such contact would otherwise expedite favorable disposition of the subject application.

Respectfully submitted,

SHERIDAN ROSS & MCINTOSH
